

About German eForensics

We are a young, fast growing, ISO9001- certified high-tech startup that develops with EVISCAN a worldwide unique solution for contactless and digital forensic for international security authorities and forensic laboratories. For our product innovation, we have received numerous awards for technology, design and business. As a result of strong client interest and solid venture capital financing, we plan to further strengthen our dynamic, interdisciplinary team and are now looking for an:

Marketing Intern (m/f)

Your Tasks

As a reinforcement of our marketing team, you will support and optimize our website on a WordPress basis, as well as external and self-developed extensions. Your varied tasks will include the following:

- Marketing support (in-house)
- Collaboration in the development and management of our marketing activities
- Conception, implementation and control of sales-supporting marketing measures
- Collaboration with sales manager and marketing team

Your Qualifications

- Study of Business Administration/VWL, IM, Marketing or comparable education
- First experience in marketing or communication
- Very good knowledge in dealing with MS-Office applications
- Ideally already first experiences with WordPress
- Very good written and spoken German and English skills, other languages advantageous
- You work goal-oriented, on your own responsibility and also enjoy working in a team
- A structured, analytical and goal-oriented working style with its own creative impulses
- Strong communication skills to work independently in a young, motivated team

Your Chances

You will work as an important personality in our young and dynamic team in the environment of an up-and-coming high-tech start-up and will advance the development of an innovation for the police, secret services, the military and other partners that has attracted much attention worldwide. Through our work with renowned, international partners, we offer you exciting projects, creative freedom and promising perspectives for your professional career. In addition to a salary that matches your profile, you will also receive relevant practical experience, a first-hand start-up culture and personal development.

Your Next Steps

Send your application including CV, desired starting date and references to Eike Manusch (karriere@eviscan.com, +49 (261) 201671-0)
